REFLEXOS

Profundos (ou miotáticos/tendinosos)

A photograph of two male doctors in white lab coats sitting at a desk in a clinical office. The doctor on the left, wearing glasses, is looking at the hand of the doctor on the right. The doctor on the right is holding a patient's hand and examining it. In the background, there is a printer, a calendar, and some medical posters on the wall.

Qual a raiz afetada?

Preciso de hidratante!

Erik Ensrud

Quadriceps reflex
(patellar reflex,
kneejerk reflex)

Triceps surae reflex
(Achilles reflex,
ankle-jerk reflex)
